

HOMESCHOOL LAWS CHECKLIST & WORKSHEETS

Hey there, Mama.

We know how overwhelming it can be when you first start out homeschooling. You know you're supposed to check the homeschooling laws for your state, but finding those laws and understanding what exactly are you looking for is easier said than done.

No worries! Homeschool-U has you covered! We've identified 15 components you should pay attention to when researching your state's homeschool laws. We've created a checklist and a worksheet for you to use to become familiar with your state's homeschool laws.

Also, Homeschool-U's founder Michele Holmes created a video that breaks down the different components of homeschool laws and how they apply to your personal homeschool. You can access that training video here:

We strongly encourage you to read your state's Board of Education document. This document will contain your state's homeschool laws.

If you would rather read a summary, the following website does a great job of summarizing the homeschool laws by state:
